

# CRAPS

## House Rules

**BASICS:** Craps is a fast and exciting game that offers a variety of bets on the layout. Each bet is dependent on the value of the uppermost side of the two dice.

**RULES:** One player, known as the “shooter” throws the dice on the craps table. All wagers must be placed before the shooter throws the dice. The types of wagers that can be made are:

**PASS LINE:** An even money bet made on the first roll of the dice (the “Come-Out Roll”). If the dice land on a 7 or 11, you win. However, if the dice land on a 2, 3, or 12 (“Craps” roll), you lose. Any other number that is rolled becomes the “point” and the point must be rolled again before a 7 to win. A Pass Line bet cannot be reduced or taken off once the point is established. It stays up until a decision is made. A Pass Line bet can be increased at any time.

**DON'T PASS LINE:** An even money bet, which is the opposite of the “Pass Line”. You lose on the Come-Out Roll if a 7 or 11 is rolled. You win on a 2 or 3 and 12 is a tie. Once a point is established, you lose if the point is thrown and win if a 7 is rolled.

**COME BETS:** Made any time after the first roll when a shooter has a point to make. You win if a 7 or 11 is rolled and lose on a 2, 3, or 12. Any other number becomes your “come point” and must be repeated for you to win before a 7 is rolled.

**ODDS:** Once a point is made on the first roll or a come point is made on a succeeding roll, you may take the odds and win if the point or Come Point is made before a 7 is rolled. Payoffs are 2-to-1 on 4 and 10, 3-to-2 for 5 and 9, and 6-to-5 on 6 and 8. “Don’t Pass” or “Don’t Come” bets are in reverse. You must lay the odds in order to win.

**PLACE BETS:** Once a point is established, you may make a place bet on numbers 4, 5, 6, 8, 9, and 10. If the shooter rolls any of those numbers before the 7, you win the following payoffs: 9-to-5 on 4 and 10, 7-to-5 on 5 and 9, and 7-to-6 on 6 and 8. A Place Bet may be taken off at any time before the next roll.

**FIELD BETS:** A one-roll bet. You win even money if 3, 4, 9, 10, or 11 rolls. You win 2-to-1 if 2 or 12 rolls. You lose if 5, 6, 7, or 8 rolls.

**PROPOSITION BETS:** These bets are found on the center of the layout and are one-roll bets. You are betting that the next roll of the dice will result in any of the numbers: Any Craps (2, 3, or 12): Pays 7-to-1; Any 7: Pays 4-to-1; Craps 2 or 12: Pays 30-to-1; Craps 3: Pays 15-to-1; 11: Pays 15-to-1.
